with Brownsville's small groups

What is a Small Group?

A small group involves three or more people who meet on a regular basis, centered on a common interest or purpose.

Small groups foster relationships, personal growth, and create opportunities for gift discovery and development. Groups can meet in homes, parks, restaurants, bowling alleys, golf courses, the church campus or any other place people gather.

How can I join a small group?

For more information, call or email the church office or one of the small group leaders listed.

What if I can't find a group?

If you can't find the type of group you'd like, consider teaming up with one or two likeminded people, go through a process of training, and start your own group!
